

POSIFLEX UPRIGHT FREE-MOTION STAND STOOL

Performance through comfort!

The Posiflex UpRight stand stool is designed to enhance comfort and allows ease of movements when workers are standing in a near stationary position.

Upholstery multi-task station

Assembly station

OUTSTANDING BENEFITS

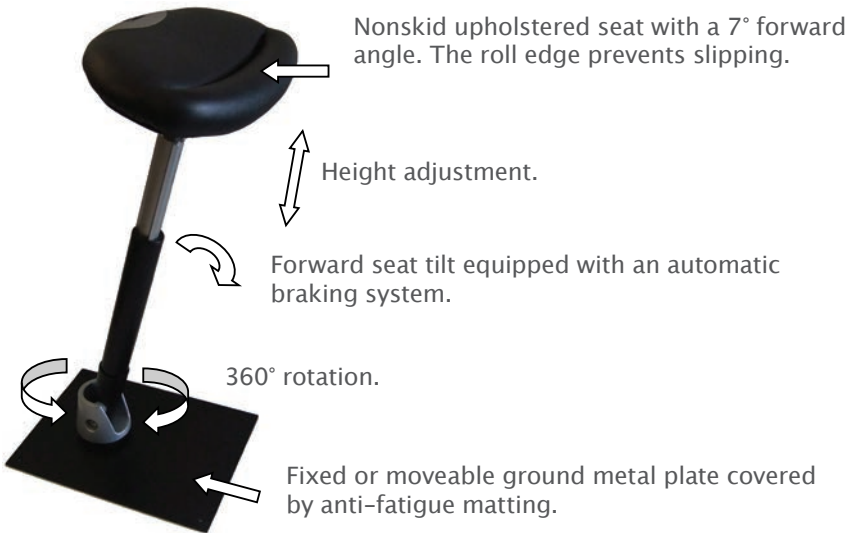

The stand stool :

- aids in the reduction of pressure on the lower back, legs and feet;
- helps keep the back straight;
- favors regular blood flow;
- allows operator to lean and stand up rapidly;
- can be used in restricted space;
- offers simple installation and easy removal;
- safe: slip resistant, controlled forward tilt.

Fields of application:

Assembly station, sorting, supermarket cashiers, customer service, office work, etc...

FEATURES

- Bench position is held by a mechanism when user stands up;
- user moves easily as if he was standing up;
- forward tilt only;
- sturdy and light : aluminum built, supports 136 kg (300 lbs);
- can be used with or without foot rest.

INSTALLATION

The bench hub is inserted in a fixed tube to the metal plate.

The bench requires minimal space and allows for simple and quick installation.
